What we offer

Peace of mind for over 2000 companies across the UK. We take the everyday strain out of running an office and allow you to focus on what's important. Our capability to supply and deliver **office supplies, corporate print, furniture, studio supplies, promotional merchandise, a managed print service and archiving**, accompanied with the highest standards of service, sets us apart, along with...

1. A personal account manager and a regular driver. It makes it easier for you to talk to us and you'll get a more dependable delivery service.

2. Goods delivered the next day wherever you are in the UK. If an item isn't available we'll contact you, offer an alternative and keep you updated.

3. A service shaped around your needs. We document your requirements to ensure we get it right first time.

4. A dedicated sourcing team for items you can't find, leaving you free to focus on other activities.

Switch to RED BOX and start saving

Choosing RED BOX will save you money. Our single-source customers benefit from one invoice and one payment and a comprehensive suite of management reports. We have a simple principle: if you can't measure it you can't manage it.

Our sophisticated online ordering facility will prevent you from exceeding your budget. A RED BOX online account enables you to monitor your purchases, control costs and manage your account at your convenience.

We make budgeting for the year ahead simple too. As well as guaranteeing competitive prices on the items you buy most, we provide fixed term contracts and help to maximise savings with low cost alternatives.

Expertise

Actions speak louder

RED BOX backs up words about being green and ethical with actions. We have recently taken important steps to reduce our carbon footprint. Ultimately our aim is to dramatically reduce our carbon emissions and make RED BOX an environmentally sustainable business.

Responsible

- 1. Our ISO 14001 accreditation** ensures that we minimise and control our environmental impact.
- 2. Our packaging has a low environmental impact** because we pack and deliver most goods in our own red cardboard boxes made from recycled material. We collect and reuse them up to five times before recycling them.
- 3. Over 80% of our van fleet feature Eco-Start emission reduction technology.** So whenever our vans are stationary they won't release harmful greenhouse gases.
- 4. We regularly measure and monitor our carbon footprint** to minimise our emissions and maintain our carbon neutral status.

Ease

Trusted for over 35 years

RED BOX began as a small company focused on meeting the needs of London's demanding creative sector. Over time our business has expanded, branched out and has an annual turnover of £20 million. We're now one of the UK's largest independent office supplies dealerships.

We have some of the biggest multinationals as customers, but we still retain the small business mentality. RED BOX is one of five successful businesses in the organisation.
