

# A PERFECTLY BOUND DOCUMENT IN 15 SECONDS.

With the impressBIND 280, anyone can achieve the perfect results in just a few steps. The extensive selection of covers and variety of materials enable you to be individual. It's easy to use – no complicated processes to learn.

With impressBIND 280, you'll be an experienced binder in just a short time.

## Step 1

**Insert the paper in the cover.**  
Select the cover of your choice and insert the document to be bound inside.

## Step 2

**Pull down the lever.**  
After you have inserted the cover with all documents in the binding slot, pull down the lever once or twice – the indicator will tell you when your document is ready.

## Step 3

**Remove the document from the machine.**  
Your "classic" is ready. The bound document can be removed from the machine.

## WELL CONCEIVED DOWN TO THE LAST DETAIL.

### At a glance.

When the colour of the indicator has switched from red to completely green, the binding is perfect. And you only need a maximum of two pushes.

### How would you like it?

After binding, with the help of the locking device, you can stow the impressBIND 280 vertically or horizontally and save space.

### It couldn't be easier.

With the help of the integrated measuring scale, check the thickness of your document to determine which cover is right.
